Berkeley County School District will host the One Berkeley Golf Tournament to benefit students throughout the county. The district's goal is to provide school supplies to students in preparation for the upcoming school year. We need your support to reach that goal! The funds you provide as a result of your participation in the golf tournament will be used to purchase book bags and school supplies.

This is a great opportunity for your company to receive exposure and help support students in Berkeley County with school supplies. As a participating sponsor you will receive full recognition in all tournament materials as well as during the event.
